The HIGH ENERGY LASER for you

A.R.C. Laser is the synonym for laser technology “Made in Germany”. All research and development for our lasers takes place in Germany. The international success made A.R.C. one of the strongest laser companies worldwide. The roots of this privately held company located in Nuremberg ranges back into the long history of laser application in medicine.

Compact modern design

The WOLF truly stands apart from the industry in terms of design and craftsmanship. Through use of unique materials and cooling technology, the laser unit is a fraction of the size and weight of other lasers on the market, providing an unparalleled level of flexibility in setup within the OR, clinic or office.
